

**Mitsubishi Electric unveils integration of Iconics and EcoAdviser Platforms that revolutionise energy management with Artificial Intelligence**

**Ratingen, 12th September 2024**

**Mitsubishi Electric introduced the integration of Iconics and EcoAdviser platforms, a groundbreaking solution designed to revolutionize energy management with Artificial Intelligence capabilities. This combination is set to drive operational efficiency, sustainability, and significant cost savings for businesses across various sectors.**

*„By bringing together ICONICS' expertise in automation software and sustainability solutions with EcoAdviser's energy-saving capabilities, this integration offers a comprehensive approach to improving industrial efficiency. It addresses multiple aspects of manufacturing, from machine management and energy consumption to data analysis and regulatory compliance, providing industries with powerful tools to optimize their operations and enhance sustainability efforts.” - explains Yasuharu Takeda, Technical Marketing Manager Strategic Product and Commercial Marketing at Mitsubishi Electric.*

### **3 key features of Iconics and EcoAdviser platforms:**

- 1. Energy analytics**

Identifies and quantifies energy losses and identifies optimization opportunities.

- 2. Detailed dashboards**

Provides a comprehensive overview of energy metrics.

- 3. Automated reporting**

Generates detailed reports on energy consumption and efficiency.

Mitsubishi Electric's integrated Iconics and EcoAdviser platforms offer a unified solution for industrial automation and energy management. This

powerful synergy enhances operational efficiency, promotes sustainability, and drives cost savings, helping businesses achieve new levels of performance and competitiveness.

### **Key benefits include:**

- 1. Unified data platform**

Combines real-time data visualization with energy optimization, simplifying management.

- 2. Enhanced efficient operational improvements**

Enriches analysis and estimation of energy loss and factors with energy data for proactive and timely interventions.

- 3. Integrated dashboards and reporting**

Customizable dashboards and comprehensive reports cover all aspects of operations and energy management.

### **Benefits for stakeholders**

- 1. Plant Managers**

Gain a comprehensive view of operations, enabling informed decision-making and enhanced control.

- 2. Engineers and technicians**

Benefit from integrated diagnostics tools for proactive maintenance and quicker problem resolution.

Explore the combined power of Iconics and EcoAdviser today and transform your operations with Mitsubishi Electric's innovative solutions.

### **About e-F@ctory**

e-F@ctory is Mitsubishi Electric’s integrated concept to build reliable and flexible manufacturing systems that enable users to achieve many of their high speed, information driven manufacturing aspirations. Through its partner solution activity, the e-F@ctory Alliance, and its work with open network associations such as the CC-Link Partners Association (CLPA), users can build comprehensive solutions based on a wide ranging “best in class” principle.

In summary, e-F@ctory and the e-F@ctory Alliance enable customers to achieve integrated manufacturing but still retain the ability to choose the most optimal suppliers and solutions.
